Suggested Air Line Lengths

1-1/8" x 2pcs		①
2" x 4pcs		○
3-3/4" x 2pcs		②

Cut to desired length. ••••••••••••••••••

Tips & Tricks

• Moisten ends of barbs with saliva or Windex.

• Use a left-right twisting motion to insert tube

• Colder climates may require the air line to be heated slightly...CAUTION DO NOT USE A FLAME!! We suggest using a heat gun or hair dryer.

• Always measure twice and cut once. No fitting likes to be poked and prodded repeatedly!
