

**Trunk Upper Decks:** Fits nicely on the upper deck in most trunks (under package tray).

Eric's 61 Cadillac as shown

In tight spaces use washers to adjust tank height, as shown.

**Frame Rails:** Fits in between the frame rails of 60-87 C10s, behind the rear axle.

Slight notch must be made for flange to mount inside frame

Marc's 63 C10

\*Only fits trucks with factory gas tank mounted in cab

**Trunk:** Sits comfortably in the trunk or compartment in most cars.

Steve's 66 Chevelle Convertible
